What's new in the Teen Lounge?

The Teen Lounge offers a place for teenagers of all ages to chillout, study, play games, hang out with friends, get snacks, and much more!

This is a teen only zone and allows teens to have THEIR space in the Library.

The display rack features new books that we are continuously getting in for our department. We also have a Manga/Graphic novel corner!

Noise levels are not monitored (unless disruptive), so get a group together and come hangout at the Library!

Bring friends & play!
